Nashville International Airport Robert C. H. Mathews Jr. Terminal Renovations

Nashville International Airport's Terminal Renovation Project, the first interior renovation of the existing terminal, built in 1987, began in October 2006.

TERMINAL RENOVATION PROJECT

- The first phase of the project began in October 2006 and was completed in January 2009.
Additions included:
 - New food, beverage and retail vendors;
 - Consolidated central security checkpoint;
 - New concourse skylights; and
 - New flight information displays.
- Phase II lasted from June 2009 through March 2011 and included:
 - Renovation of existing and construction of new public restrooms;
 - Renovation of airline gate hold rooms and baggage claim;
 - Replacement of terminal and concourse carpeting and tile, existing HVAC units and wall coverings on ticketing, baggage and ground transportation levels; and
 - Enlargement of ticket lobby.
- In-line Explosive Detection System and Inbound Baggage System
May 2009 – December 2010
 - Replaced explosive detection screening machines in lobby with in-line EDS.
 - Has streamlined and improved the safety and security of the screening process for checked baggage.
- Inbound Baggage System
Currently In Progress
 - Improves security
 - Replaces more than 20-year-old claim devices

TERMINAL REPAIRS AND ESCALATOR UPGRADES

This phase of the project is under way and includes:

- Replacing all escalators;
- Making exterior terminal repairs;
- Replacing glass and vestibule doors in ticketing lobby;
- Installing walls next to moving sidewalk in Short Term parking garage;
- Adding additional security cameras; and
- Relocating ticket counters.
